WANTED.—A woman to do general house-work.

A PROBABLE RATTLE ROUND.

A Plan to Move the Sluggers' Headquarters to Lake Tahoe.

During the past week there has been a number of strangers in this city whom no one seems quite to size down. The real mission of these parties in this section is to see what arrangements can be made to have the fights which have been billed to take place in San Francisco to come off at Lake Tahoe.

The idea is one similar to one broached some time ago when the Sullivan and Jackson fight was first talked of. It is to have a barge towed out in the Lake on the line between California and Nevada and have the fight come off on the barge which is to have a big canvass tent on it to keep the rays of the sun off the pug and the spectators.

It is calculated that such a barge will not cost over \$2,500 and that it will seat 5,000 people. A very cheap barge can be made of logs covered with flooring and earth and a sawdust pit in the center.

The logs and lumber can be rented of the lumber companies for the season and returned in the Fall. The parties here have been trying to get figures from the lumber companies for the use of the logs and lumber, but as yet have not been able to get anything definite as the company want first to get legal advice as to their liability as corporations for aiding and abetting prize fighting.

Of course the Summer resorts are not throwing much straw in the way of the scheme, as it would immensely increase the rush to the hotels there.

Whether or not the big boxing clubs are behind this scheme, or it is merely a speculation of private individuals in view of the attitude of the police authorities of San Francisco, the APPEAL is unable to learn, as they are rather close-mouthed.

The knowing ones, however, say that one of the parties now in the city is an agent of Mitchell, and that the Mitchell-LeBlanche fight is liable to come off at the Lake, as well as the Sullivan and Jackson meeting, as it is regarded as a place absolutely safe from the reach of the authorities.

THE BUCKEYE NO GOOD.—The APPEAL wishes to record its voice against the Buckeye mower. Yesterday the editor rose at 4 o'clock to cut a field of alfalfa and was spinning along at a nice clattering gait with the machine when the bolt that holds the seat came out and tumbled the writer off in among the cogs. The horses ran away leaving the driver spinning about on his head and quoting passages from Hamlet. The team broke into the front yard and the machine, which kept in action, cut down a line of hedges costing a dollar a yard, thirty six rose bushes, two dozen young linden trees, a yellow dog, but no grass. The old ramshackle Buckeye mower is a thing of the past and no good. If you want to get the modern mower, a machine that stays, cuts grass and hold its rider intact, get the new McCormick at E. B. Rails. We got a new McCormick in the afternoon and it worked like oil.

A WOMAN OF SPIRIT.—At Grand Rapids, Mich., on Friday, Mrs. Mary Molland was held by the University States Commissioner for refusing to answer a census enumerator and driving him out of the house with an ax. When arraigned she admitted the charge but said "he insulted her by asking her if her husband was a black, a homeless child, pauper, prisoner or convict, and she would not stand that from any man."

THEATER TONIGHT.—Tonight, Held by the Enemy, the greatest war drama of the age will be given with mechanical and scenic effects never before introduced in this city. It will be a great play, and the Carson Guard will take part in the tableaux.

ICE.—Doc Benton is now offering a very superior quality of ice for sale, delivered to any part of the city. It is the best ice harvested for years in this section. m5

GREAT CALL.

A Sacramento Advertising Agent "Hoes" the Lake.

Oliver Roberts, proprietor of the Bellevue Hotel, says that the greatest traveling gail he ever saw was carried by a Sacramento man who was canvassing for advertisements for one of the daily papers.

He got off the boat, which stopped just long enough for dinner, and asked Roberts what he would charge for board by the week. When he had got the rates he lifted Roberts for a ten dollar advance of the hotel and got his money in advance.

Just then the alarm for dinner sounded, but the man did not seem to want to tackle the dining hall. He kept edging nearer and nearer to the store-room, and finally slid in.

Here he found a large new cheese, and grabbing a knife he slashed out a two-pound segment, and stuffing his pockets full of crackers wandered down to the beach to watch the laughing waves.

He left when the boat did, and as the craft pulled off, Roberts called out:

"Say, my boy, do the next place up as you have this, and we'll call it square. The cracker and cheese room of the Tallac is just South of the kitchen."

SCOOPED ON A TECHNICALITY.—Rotenthal of Hawthorne who has been vaunted as the greatest foot-racer of the country consented to take \$500 he had never won because Dobbins' backers through an over-sight neglected to post their money on time. Dobbins is ready to put up the balance \$2,500 and run for the stakes, but Rosenthal prefers to get the money on a technicality. The best way for a foot racer to get money is to run for it.
